## 3rd Quarter Highlights

Moving into the third quarter we are super excited about our upcoming programs. We have an amazing Survival Program starting this fall that helps high school students prepare for life after school. We have our Retain Your Brain Program that will focus on social-emotional learning for middle-high school students to help them with self-care. We have our Together We Can Program that will focus on family engagement that will help promote healthy communication.

## COACHING BOYS INTO MEN CLINIC

### Join Us

7/30 from 9am - 12pm  
Marydia Community Center  
707 Sawdust Trail  
Kissimmee, FL 34744

Athletic coaches play an extremely influential and unique role in the lives of young men. Because of these relationships, coaches are poised to positively influence how young men think and behave, both on and off the field. Coaching Boys Into Men (CBIM) is the only evidence-based prevention program that trains and motivates high school coaches to teach their young male athletes healthy relationship skills and that violence never equals strength.

Join us on July 30th as we go over the CBIM program. We want to help our youth build better practices when it comes to relationships and communication. The coach's playbook will help with guiding the conversation and it can be done in 5 mins or less at the beginning of practice.

Starting  
this  
Fall!

We're excited about our family engagement program that will start in the fall. As parents, it's sometimes hard to connect with our children, especially when electronics are involved. This program provides a space where parents and students will engage in tough topic conversations. Each month we will provide a topic of the month and we will either have game night or movie night on either a Saturday or Sunday. Locations for this will vary, however, we will be in constant communication with families involved. We want to make it easy for families in Orange and Osceola County to participate so we will be working with local establishments in both counties to accommodate this program!

This is open to parents with students in middle school or high school. Some topics may be sensitive so we have partnered with a few local social workers and therapists to provide support!

## **Mental and Behavioral Health - African Americans**

- In 2019, suicide was the second leading cause of death for blacks or African Americans, ages 15 to 24.<sup>1</sup>
- The death rate from suicide for black or African American men was four times greater than for African American women, in 2018.
- The overall suicide rate for black or African Americans was 60 percent lower than that of the non-Hispanic white population, in 2018.
- Black females, grades 9-12, were 60 percent more likely to attempt suicide in 2019, as compared to non-Hispanic white females of the same age.
- Poverty level affects mental health status. Black or African Americans living below the poverty level, as compared to those over twice the poverty level, are twice as likely to report serious psychological distress.
- A report from the U.S. Surgeon General found that from 1980 - 1995, the suicide rate among African Americans ages 10 to 14 increased 233 percentage, as compared to 120 percent of non-Hispanic whites.<sup>2</sup>

# NATIONAL WATER QUALITY MONTH

*August*

## WATER QUALITY MONTH

Clean water is essential for healthy communities!  
We monitor water quality regularly to ensure it's  
safe for consumption, bathing, and cooking.

### HOW CAN YOU PROTECT WATER TOO? IT'S EASY:

**Skip the fertilizer & pesticides!** Rain washes pesticides and fertilizers into the soil, seeping into the waterways that supply our drinking water.

**Pick up after your pup!** Animal waste contains disease-causing bacteria and is also high in nitrogen, which promotes dangerous algae blooms.

**Forget flushing!** Prescription medications and pollutants such as used motor oil, paint, or antifreeze should never be flushed down the toilet or poured into a storm drain. Find out how to properly dispose of them in your community.

**Join a clean-up crew!** Protecting water is a group effort. Search online for local beach or wetlands cleanup projects and help keep plastic and other pollutants out of our water.

The graphic features a dark blue background with yellow and white text. It includes a logo for the Foundation Inc. and a silhouette of a head with puzzle pieces inside. The text is arranged in a structured, blocky format.

Mental health problems can affect many areas of students' lives, reducing their quality of life, academic achievement, physical health, and satisfaction with the college experience, and negatively impacting relationships with friends and family members. These issues can also have long-term consequences for students, affecting their future employment, earning potential, and overall health.

<https://www.sprc.org/colleges-universities/consequences>

Our Retain Your Brain program was created to help students with social-emotional learning support. Sometimes they need a place to feel heard and understood. Our goal is to provide them a safe atmosphere where they can share how they feel while getting the proper tools for coping. Whether it's a boost in confidence and self-esteem, building healthier relationships, or understanding stress and how to manage it. We are here for students every 3rd Monday for online support. We will offer a 6-week self-care series each Fall, Spring, and Summer to help students build a tool kit of resources for better-coping skills and stress management.

This is open to middle and high school students.

# NEW FALL PROGRAM

We're excited to announce our Survival Program that will run from August to May.

Students will receive a program t-shirt, survival box with material, and a canvas invite which is where our program material will be.

The program will only be open to 25 students in person and 25 students in our online program. Students will need to commit to attending the once-a-month Saturday workshops and to student meetings. Workshops will be on the 2nd Saturday of each month, and student meetings will be on the 1st Thursday of every month. Parents/Guardians, we have a check-in the 3rd Wednesday of every month. We want parents/guardians to be just as involved in the process because we have resources for you too! These check-ins keep you up to date on what's happening within the month and it allows you time to give feedback. Yes, we want to hear more about things you want to see more of or things that you don't want or need. To get started in this program you'll need to fill out the application, and then attend orientation with your student.

## SUICIDE PREVENTION

# HOW TO OBSERVE NATIONAL SUICIDE PREVENTION MONTH

### 1. Spread the message

Throughout Suicide Prevention Month, it's extremely important to spread awareness, take time to reach out to those in need and help people understand the severity of this cause. How? Hand out Suicide Prevention pins, start a campaign, and share stories of hope on social media.

### 2. Volunteer at a crisis center

Provide support by volunteering at a crisis center in your area. Although this is something that can be done year-round, Suicide Prevention Month is the perfect time to get started. Check out the National Suicide Prevention Lifeline, an organization that offers free and confidential emotional support 24/7 to those in crisis or emotional distress.

### 3. Record a supportive video

This is an easy option that doesn't cost money or time, so anyone can do it. Simply record a 15-30 second video promising your friends to listen to anything they need to say. Then, use the hashtags #suicideispreventable #800273TALK #LETITOUT.

# Sponsorships

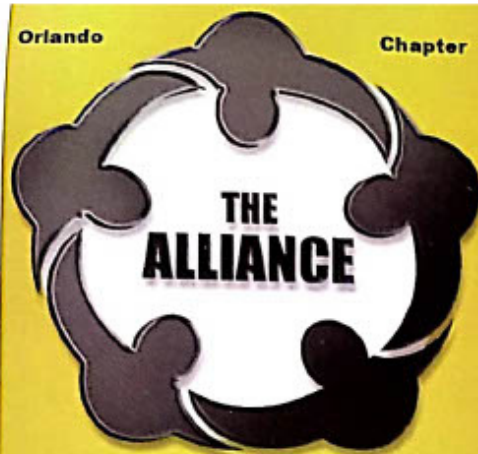

I pledge to make a difference is a pledge that Step's Foundation, Inc truly believes in. We believe that the small differences makes the biggest impact. We are often asked "How can I help"? There are so many ways that you can help but if you're unsure here are a few:

- 1, You can volunteer your time, expertise, or services. We love volunteers and we can tell you there is so much work to be done from helping setup and take down workshops, helping register families, spreading the word, joining committees, helping plan events, help put together goodie bags, etc.
2. We are looking for Survival Program Sponsor. This is \$100 and it helps cover the cost of supplies for the workshop, snacks, and location.
3. We are looking for student sponsors. The cost of a student sponsor is \$250. This helps cover the cost of the student survival box and incentives.
4. Make a one time or monthly donation in any amount.

You can make an online payment by clicking the link below or mail a check/money order to:

The mission of the The Alliance's Orlando chapter is to monitor, recognize, mentor, and uplift African American youth. We implement meaningful programs that will prepare the students for college, encourage family support, and understand the challenges facing many students. We will utilize athletes as catalysts to inspire leadership, while recognizing and rewarding academic, athletic, and community excellence.

Our vision is to help our students flourish academically by providing them with an abundance of resources, mentors and leadership opportunities. We plan to organize and conduct meetings, have discussions on relevant topics, including college availability, applications, career exploration, scholarship programs, grants, and financial aid applications. We will prepare students to become productive, creative leaders of the community. Our goal is to be a model organization for student athletes to excel in every aspect of their life.

We had the pleasure of hanging out with Thee Vineyard in April for their first student workshop. They talked to students about building and maintaining good credit. We were happy to be in the building with one of our community partners Malcolm McCloud who spoke to students. The event was a huge success and we were able to check out Boston Coffee House in Altamonte where the event was held. We look forward to seeing more come Thee Vineyard!

Pledging to make a difference is something we all can do. It starts with kind words and gestures. Lamar has always enjoyed seeing other people smile, so when he asked to create kindness cards we wanted to share them with the world. Not only are we encouraging adults to utilize the cards but also encouraging students to get involved as well. The back of these cards are left blank so that you can write positive messages on them for someone else. The proceeds for these cards will go to student programs.
